For Your Benefit

**FOR YOUR
BENEFIT**

PENSION CREDIT CHANGES

The age to claim Pension Credit continues to rise. From November, you won't be able to claim until you're 65. Next February there will be a further change. If you have children, your Pension Credit will include an amount for them, rather than you claiming a separate Child Tax Credit.

FREE ADVICE

Iasa has launched Advicelocal, a free service offering advice on a host of issues including welfare benefits, debt and money advice, employment and work issues. Visit www.advicelocal.co.uk and enter your postcode to get tailored information for your area.

CHILD BENEFIT

Child Benefit stops on 31st August after a child's 16th birthday if they leave education or training. If they are planning to stay in approved education or training, parents must tell the Child Benefit Office during their last year of school. Call **0300 200 3100** or visit www.gov.uk

HELP TO SAVE

A new Help to Save scheme is being trialled by the government to help people become regular savers. The scheme is available to people who are receiving Working Tax Credit or Child Tax Credit or claiming Universal Credit and have a monthly household income of £542.88 or more. Help to Save account holders can save up to £50 a month and will receive a 50% bonus on their highest balance after two years. Call **0300 322 7093** or visit www.gov.uk

RIGHT TO BUY

A Voluntary Right to Buy 'regional pilot' will be taking place in the East and West Midlands and it is up to individual housing associations whether to take part. The National Housing Federation and the Government recognise that smaller housing associations, such as us, may face practical barriers to participation and will choose to opt out.

Due to our size, the barriers we would face, and the fact that many of our homes cannot be sold due to their rural location, we have decided not to take part in the VRTB pilot scheme.

BENEFITS CHECK

Are you sure you're claiming all the benefits you're entitled to? If you'd like your Tenancy Services Officer, Monica, to come to your house and do a benefits check for you, call **0300 123 4009**.

HOW TO...

Defrost a condensate pipe

Here's the latest guide in our 'How to...' feature to help you keep your property looking great and running well.

If your condensate pipe freezes in the cold weather, your boiler will shut down, but it's easy to get it running again.

1. The condensate pipe is usually a white or grey plastic pipe which travels from your boiler through the wall to your outside drain.
2. If you think it has frozen, run your hands along the pipe to see if a section feels colder than the rest. This will be the blockage.
3. Use a jug or watering can to pour warm water along the pipe until it has thawed. Don't use boiling water as it can damage the pipe.
4. Restart your boiler.
5. To prevent the pipe from freezing again, wrap it in old towels or buy some foam pipe insulation from a DIY shop.

GOOD NEIGHBOURS

Daventry District Council is looking to develop Good Neighbour schemes across the district and is offering funding for local neighbourhoods to set up a scheme. The aim is for local people to provide day-to-day support to older or more vulnerable residents, for example help with shopping, dog walking and offering lifts. To find out more, call **01327 871100**.
